Amplifier Solutions Corp:

High Quality Hybrid, Surface Mount Flange, Open Carrier, and Connectorized Amplifiers. IF/RF Amplifiers, Low Distortion Amplifiers, LNAs. Discrete and MMIC chip and package combinations.

<http://www.amplifiersolutions.com/>

ConductRF:

ConductRF provides a broad array of RF Cable Assembly and Connector Solutions. RF Cables include High Frequency options up to 110GHz. With two independent ranges of RF Connectors covering commercial solutions including SMA, N, TNC etc and precision solutions including 3.5mm, 2.92mm and more. Custom solutions are available by request along with technical design support

www.ConductRF.com

IDSI, LLC

IDSI, LLC provides custom designs of broadband RF and microwave amplifiers and amplifier-based subsystems and sub-assemblies for a broad range of government applications, including electronic warfare and communications products in the defense market sector.

<http://www.idsillc.com>

Innovative Power Products:

Couplers, combiners, resistors, terminations, and custom power products.

<http://www.innovativepp.com>

Passive Plus Inc:

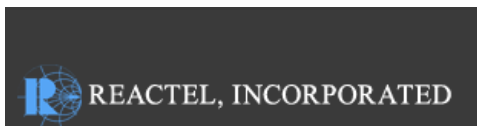

A manufacturer of high-performance RF/Microwave passive components, serving the Medical, Semiconductor, Military, Broadcast and Telecommunications Industries. PPI specializes in High-Q / High Power, Low ESR /ESL Capacitors; Non-Magnetic Capacitors

<http://www.passiveplus.com/>

Reactel:

RF and Microwave Filters, Diplexers and Sub-Assemblies from DC to 50GHz. We offer tubular, LC, cavity, and waveguide designs, as well as state of the art high performance Suspended Substrate models.

WLM COMPONENTS

Manufacturer's Representative

New England

Q-Par Antenna:

Q-par Angus has been at the forefront of microwave design and manufacture since 1973. The company excels in the research, design & manufacture of COTS and bespoke microwave antennas, subsystems and associated microwave components.

<http://www.q-par.com/>

Sumida:

Power Inductors, RF Inductors, Power Transformers, Signal Magnetics, EMC Coils, Wireless Charging Coils, RFID Antennas and Tags, Sensors & Actuators, Point of Load Power Conversion Modules, Custom Magnetic Assemblies. ISO9001, ISO14001, TS16949 certified.

<http://www.sumida.com/>

Synergy Microwave:

Synergy Microwave manufactures low noise frequency sources including VCO's, DRO's, OCXO's, Saw Oscillators, and Synthesizers; and signal processing components including Mixers, Hybrids, Couplers, for Commercial and Military Communications.

<http://www.synergymwave.com/>

Tagore Technology:

Disruptive GaN-on-Si RF Products. Low Cost / Low current Integrated High Power RF Switches.

<http://www.tagoretech.com/>

TXC Corporation:

TXC is a world leader in manufacturing of Crystal & Oscillators for Consumer, Industrial, Server & Storage, Networking, Telecom and Automotive applications. Products include XTAL, XO, VCXO, TCXO, OCXO.

http://www.txccorp.com/index_en.php

Velocity Microwave:

Velocity Microwave manufacturers repairable RF test cables, unisex connector gages and quality torque wrenches designed to reduce cost, of ownership, extend product service life and increase ease-of-use.

<http://www.velocitybygte.com/>

Wolfspeed:

Gallium Nitride (GaN), RF& Microwave Power Transistors and MMIC's
