Agile Calibration:

Offering onsite calibration services using NIST Traceable standards and compliant to ISO 17925 and ANSI Z540-1. Our scope of capabilities includes DC & Low Frequency meters, power supplies, signal generators, oscilloscopes, microwave spectrum analyzers, network analyzers, signal sources, attenuators and optical technologies including attenuators, laser sources, power meters, wavelength meters and others.

www.AgileCalibration.com

ConductRF:

ConductRF provides a broad array of RF Cable Assembly and Connector Solutions. RF Cables include High Frequency options up to 110GHz. With two independent ranges of RF Connectors covering commercial solutions including SMA, N, TNC etc and precision solutions including 3.5mm, 2.92mm and more. Custom solutions are available by request along with technical design support

Environmental Stress Systems

We manufacture high precision standard products covering a wide range of thermally conductive and convective environmental stress screening applications for Microwave, Aerospace, Telecommunications, Military and Automotive components. These are hot/cold plates, space simulation thermal chambers, thermoelectric module systems and cascade condensing units.

IDSI, LLC

IDSI, LLC provides custom designs of broadband RF and microwave amplifiers and amplifier-based subsystems and sub-assemblies for a broad range of government applications, including electronic warfare and communications products in the defense market sector.

Innovative Power Products:

Couplers, combiners, resistors, terminations, and custom power products.

<http://www.innovativepp.com>

Passive Plus Inc:

A manufacturer of high-performance RF/Microwave passive components, serving the Medical, Semiconductor, Military, Broadcast and Telecommunications Industries. PPI specializes in High-Q / High Power, Low ESR /ESL Capacitors; Non-Magnetic Capacitors

WLM COMPONENTS

Manufacturer's Representative

New England

Reactel:

RF and Microwave Filters, Diplexers and Sub-Assemblies from DC to 50GHz. We offer tubular, LC, cavity, and waveguide designs, as well as state of the art high performance Suspended Substrate models.

<http://www.reactel.com>

Steatite Antenna:

“Research, design & manufacture of Commercial-off-the-Shelf (COTS) & custom designed microwave antennas, subsystems and associated microwave components”. Horn antennas, Omni-directional antennas, Sinuous antennas, Spiral antennas, Reflector antennas, Spinning DF antennas

<https://qparusa.com/>

Sumida:

Power Inductors, RF Inductors, Power Transformers, Signal Magnetics, EMC Coils, Wireless Charging Coils, RFID Antennas and Tags, Sensors & Actuators, Point of Load Power Conversion Modules, Custom Magnetic Assemblies. ISO9001, ISO14001, TS16949 certified.

<http://www.sumida.com/>

Synergy Microwave:

Synergy Microwave manufactures low noise frequency sources including VCO's, DRO's, OCXO's, Saw Oscillators, and Synthesizers; and signal processing components including Mixers, Hybrids, Couplers, for Commercial and Military Communications.

<http://www.synergymw.com/>

Tagore Technology:

Disruptive GaN-on-Si RF Products. Low Cost / Low current Integrated High Power RF Switches.

<http://www.tagoretech.com/>

TXC Corporation:

TXC is a world leader in manufacturing of Crystal & Oscillators for Consumer, Industrial, Server & Storage, Networking, Telecom and Automotive applications. Products include XTAL, XO, VCXO, TCXO, OCXO.
