ConductRF: www.conductrf.com

ConductRF provides a broad array of RF Cable Assembly and Connector Solutions. RF Cables include High Frequency options up to 110GHz. With two independent ranges of RF Connectors covering commercial solutions including SMA, N, TNC etc and precision solutions including 3.5mm, 2.92mm and more. Custom solutions are available by request along with technical design support.

CTT: www.cttinc.com

CTT is a manufacturer of High Frequency Power Amplifiers (GaAs/GaN), low-noise amplifiers (LNA's), frequency multipliers, transmitters, transceivers and receivers within the frequency spectrum of 10 MHz to 50 GHz.

Innovative Power Products: www.innovativepp.com

Innovative Power Products designs and manufactures High Power 90 Degree Couplers, Directional Couplers, Dividers /Combiners, Resistors, Terminations, Baluns, Attenuators, and Custom Broadband Products for the RF and Microwave industries.

Integra RF Power Devices: www.integratech.com

RF Power Transistors and Pallets for High Power Radar, and Pulsed Applications. Semi-Custom GAN Devices and Modules, High Voltage GAN Power Transistors

JFW Industries: www.jfwindustries.com

Specialists in Attenuation and RF Switching: Fixed and Programmable Attenuators, RF Switches, Terminations and Loads, Automated Switch and Attenuator Systems, Power Dividers

Passive Plus Inc: www.passiveplus.com

A manufacturer of high-performance RF/Microwave passive components, serving the Medical, Semiconductor, Military, Broadcast and Telecommunications Industries. PPI specializes in High-Q / High Power, Low ESR /ESL Capacitors, Non-Magnetic Capacitors

Polyfet RF Devices: www.polyfet.com

Polyfet RF Devices is a manufacturer of broad band RF power transistors and power modules. Our devices consist of Gallium Nitride, LDMOS, and VDMOS technologies processed using state of the art equipment.

Reactel: www.reactel.com

RF and Microwave Filters, Diplexers and Sub-Assemblies from DC to 50GHz. We offer tubular, LC, cavity, and waveguide designs, as well as state of the art high performance Suspended Substrate models.

Retronix: www.retronix.com

Retronix provides robotic hot solder dip and reflow, BGA/LGA reball, PCB rework, component recovery of high value or hard to find parts, and counterfeit testing services.

Steatite Antenna: www.qparusa.com

Research, design & manufacture of Commercial-off-the-Shelf (COTS) & custom designed microwave antennas, subsystems and associated microwave components". Horn antennas, Omni-directional antennas, Sinuous antennas, Spiral antennas, Reflector antennas, Spinning DF antennas

Sumida: www.sumida.com

Power Inductors, RF Inductors, Power Transformers, Signal Magnetics, EMC Coils, Wireless Charging Coils, RFID Antennas and Tags, Sensors & Actuators, Point of Load Power Conversion Modules, Custom Magnetic Assemblies. ISO9001, ISO14001, TS16949 certified.

Synergy Microwave: www.synergymwave.com

Synergy Microwave manufactures low noise frequency sources including VCO's, DRO's, OCXO's, Saw Oscillators, and Synthesizers; and signal processing components including Mixers, Hybrids, Couplers, for Commercial and Military Communications.
